## SSAIB ACCREDITED INSTALLER AND INSURANCE APPROVED

A state of the art CCTV system, designed and installed to your specific requirements, will provide an unparalleled level of security for your business.

Not only do we offer our clients peace of mind, we save them money as well; on average, a CCTV system costs an impressive 60% less than a static security officer.

WE OFFER THE LATEST STATE-OF-THE-ART CCTV EQUIPMENT, RANGING FROM FULLY INTEGRATED, MOBILE APP ENABLED CCTV SYSTEMS, TO TOTALLY WIRELESS AND TEMPORARY CCTV SYSTEMS.

WE CAN UPGRADE EXISTING SYSTEMS, OR DESIGN, INSTALL AND MAINTAIN A NEW ONE. WHATEVER IT TAKES TO GET THE CCTV SYSTEM YOUR HOME OR BUSINESS NEEDS.

We work with businesses of every size and with some of the largest banks, construction, civil engineers and retail chains in the UK, designing, installing and maintaining tailored CCTV systems. Every part of our service is delivered by in-house experts, allowing us to guarantee quality and security throughout.

We work with residential, commercial and industrial properties throughout the UK.

We have the experience and expertise needed to meet any and all requirements, and our SIA accreditation provides total peace of mind from day one.

## CCTV MONITORING SERVICES

SIA Approved for the Operation and Management of Public Space CCTV Systems.

The flexibility and peace of mind offered by CCTV has made it one of the fastest growing sectors within the wider security industry.

Steelforce Security is at the forefront of this development. There are over 5 million CCTV cameras active within the UK, and those installed and maintained by Steelforce Security offer the best possible provision.

We have our own purpose built 24 hour control room, from where our trained and SIA licensed members of staff are able to monitor the CCTV systems we've installed throughout the UK and dispatch officers alike and as when needed.

# 60%

less than a static security officer which is why CCTV is rapidly becoming a favoured service by current and new clients

## CCTV RESPONSE SERVICES

A Steelforce Security CCTV system will provide monitoring and security for your premises, project or business but even the best system is only as good as the response to any event.

At Steelforce Security we provide a response, in the event of any incident, which is swift, comprehensive and reassuring.

In the event of an alarm of CCTV activation a Steelforce Security Alarm Response Officer will immediately travel to your premises. Once there, they will carry out a comprehensive check of your premises and, if a break-in or attempted break-in has caused damage, they will call out your specified property maintenance company. They will then remain on site until your property has been made secure again.

## MOBILE PATROLS & STATIC GUARDS

---

Technology can play a huge role in safeguarding your property or business but sometimes the human touch is required. That's why Steelforce Security takes great pride in providing a mobile patrols service which is second to none.

When you need eyes and ears on the ground protecting your interests, then you need Steelforce Security patrol officers. We provide the personnel to meet your needs, whether that means internal or external patrols.

We also have the expertise needed to maintain covert patrols, as well as those which offer a deterrent by patrolling in plain sight within premises and surrounding areas.

### WHY CHOOSE STEELFORCE SECURITY?

Every Steelforce Security patrol officer is fully trained, licensed and insured. Combine that with years of experience within the industry and you have complete peace of mind.

Mobile patrols are sometimes sold as a more cost effective option, but that doesn't mean we cut any corners. We place the emphasis on excellence delivered in a cost-effective manner, with live GPS tracking systems and daily reports keeping our clients firmly in the loop.

If needed, we can even provide photographic evidence and GPS reports, because your security is our business.

# SIA APPROVED KEYHOLDING & RESPONSE

Steelforce Security are an SIA accredited company in the area Keyholding & Alarm Response Services

When you hand over the keys to your business you hand over its' security, and that responsibility is 100% safe in the hands of Steelforce Security. That's why some of the largest and most successful banks, building societies and retail chains in the UK trust us to hold their keys.

If an alarm is triggered at your premises, a licensed member of our staff will attend your property, gain access, check its status and secure it. It really is that simple, and it means that neither you, nor a member of your staff, will have to face the inconvenience and possible risk of attending a property out of hours.

## SIA REQUIREMENTS

You don't have to take our word for the standard of our keyholding services. We meet all of the requirements of the Security Industry Association (SIA), which means that the following factors are guaranteed:

KEYHOLDING  
AS LITTLE AS  
45P PER DAY

## SPEED & SECURITY

We offer a combination of speed, convenience and security to all of our key holding clients. Our commitment to rapid response means that we can arrive at your premises minutes after the alarm has been triggered.

Nine times out of ten, our SIA licensed personnel actually respond more quickly than members of the police force. Once on site we can arrange for your property to be fully secured and will remain on site until this has been achieved.

In the best case scenario your alarm system will never be activated, but in the real world intruders might attempt to gain access to your premises. By utilising Steelforce Security SIA accredited keyholding services you guarantee the best possible outcome if this does happen.

Put simply, you can relax - your keys, and the security of your business, are in the safest possible hands.

## LOCKING & UNLOCKING

Locked doors provide security, and that's why you need your keys to be looked after by the experts at Steelforce Security.

Our SIA approval guarantees strict levels of security, and the flexibility of our services means that we can provide exactly what you need.

Rather than having to pay a member of staff to stay behind to check and secure

your premises, you can rely upon fully trained Steelforce Security operatives to do it for you. We can lock and unlock premises at intervals contractually agreed in advance, or perform a full sweep and lock down to guarantee security at the end of a day.

### BENEFITS

#### 1 RESPONSIBILITY

Steelforce Security will take responsibility for the keys to your site or premises. All keys are held in our accredited key management system and are audited both internally and externally, through annual audits by the SIA.

#### 2 SECURITY

Steelforce Security officers will familiarise themselves with your alarm systems meaning your principle staff are not called to deal with false alarms after hours.

#### 3 FAST RESPONSE

When an intruder alarm or fire alarm is activated, a fast response is critical. Our local patrols provide a fast, efficient response, providing eyes and ears on the ground, giving you peace of mind.

#### 4 EMERGENCY ASSISTANCE

Our alarm response officers can also meet you at your premises if you wish to attend site yourself. We can arrange emergency assistance such as police and boarding up services and remain on site until your premises have been fully secured.

# COMMERCIAL ALARMS

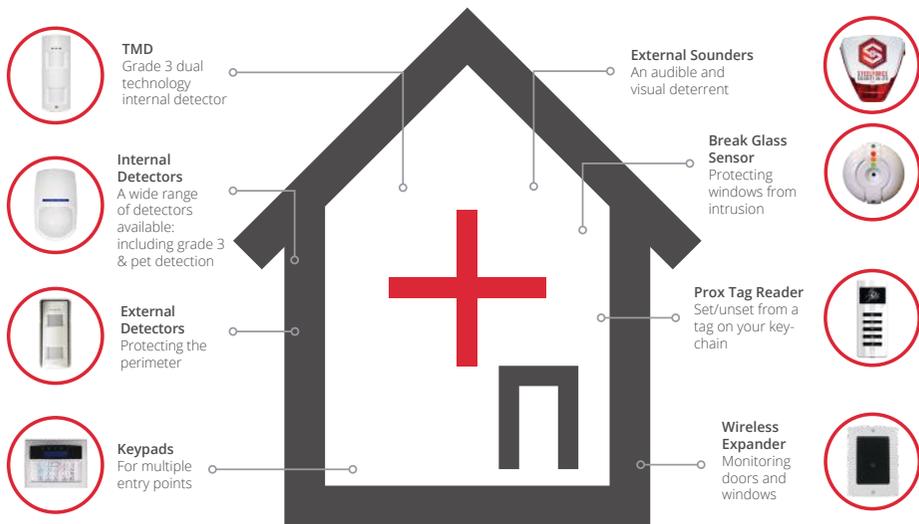

No matter what the size or scope of the requirements, the ForceField Alarm System is a system to suit your needs. From a small office to a multi-use complex, the ForceField Alarm System can be configured to your requirements.

# DOMESTIC ALARMS

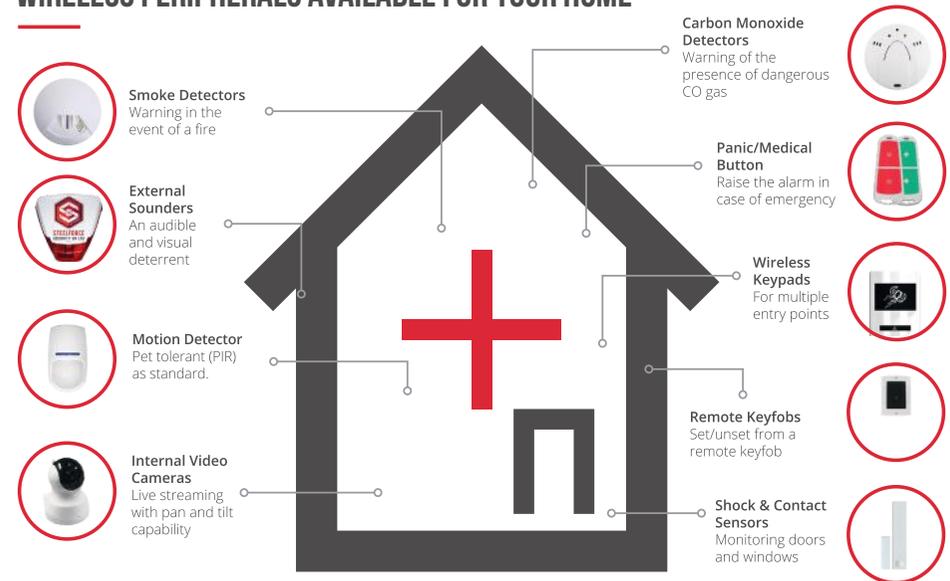

The ForceField - Alarm Systems can be easily installed in new builds or existing houses with minimal fuss and disruption, thanks to its innovative two-way wireless technology. No wires to run or hide means that it is also an ideal solution for newly decorated homes or listed buildings.

## WIRELESS PERIPHERALS AVAILABLE FOR YOUR BUSINESS

## WIRELESS PERIPHERALS AVAILABLE FOR YOUR HOME

## ACCESS CONTROL SYSTEMS

Securing your premises doesn't only mean controlling who comes in and out. It can often mean monitoring and regulating who has access to specific areas within the property at any given time.

Steelforce Security offers access control systems varied and flexible enough to work within the full range of premises from residential properties to offices, shops, construction sites and industrial establishments. Once our access control system is installed you'll enjoy complete control and the ability to maintain accurate records of who moves throughout your premises and when.

Access fobs or cards can be added or cancelled at any time, allowing total flexibility as your security requirements change. Another advantage of an access control system is an end to the inconvenience of having to change a lock when keys are lost.

# A LITTLE BIT ABOUT US

Established in 2005, Steelforce Security has grown to become one of the UK's leading security companies offering a nationwide service.

Year on Year our scores have improved on the Approved Contractor Scoring (ACS) scoring triangle taking us up to the top 5% of accredited companies of a similar size in the UK.

Steelforce Security holds accreditations with SIA, SafeContractor, CHAS, Construction Line, SMAS, ISO 9001, Pacesetters, AchillesCore and were back to back finalists in 2015 & 2016 at the prestigious Security & Fire Excellence Awards for ACS Champion.

In 2016, we received an SSAIB accreditation for Installations for Electronic Security Service.
